MINUTES FOR MICK REUNION 2010

Lorne Monahan updated us on the status of the Pallantine book which was recently published. The Mick piece was not included as we were missing information that we could not validate. The article was available for people to take. All members send website updates to Paul Anderson. Lorne informed the group that we need to continue with donations to keep the website going – it takes about \$500 per year to keep it going. There was a discussion about privacy with regards to names being put on the website.
